hello

My name is Kaitlyn

I'm a graphic designer with a passion for visual storytelling and a pragmatic, get-it-done attitude. I bring creativity, organisation, and energy to every project, with a focus on design that makes an impact. I've worked with Adobe and taken on diverse freelance projects, building strong skills in meeting deadlines and collaborating from concept to delivery. My 'can do' mindset earned me a nomination for the Cameron Day Charitable Trust Grant and the East Midlands Chamber Future Leader Award. I've won several design competitions, and my book "How To Do It Rong" is stocked in two bookshops. Some of my proudest achievements.
